Kenneth Clair was convicted in 1985 for a crime that he did not commit. He has spent the last 31 years in jail, serving a jail sentence for a crime that newly discovered DNA evidence points to someone else. Because of the corruption in the justice system, the DNA results were covered up for years. A child witness told the police that a white man committed the crime. Kenneth Clair is an African American. Recent DNA results that the District Attorney is trying to keep from the defense also point to a white person. WE ARE RALLYING SO THE DA TURNS OVER THOSE RESULTS OR EXONERATES KENNETH CLAIR !!!!
